### UNPUBLISHED DECISION<sup>1</sup>

On July 27, 2021, the parties filed a joint stipulation concerning the petition for compensation filed by Rebecca Wentland on August 28, 2018. Petitioner alleged that the tetanus, diphtheria, and acellular pertussis (“Tdap”) vaccine she received on April 8, 2016, which is contained in the Vaccine Injury Table (the “Table”), 42 C.F.R. §100.3(a), caused her to suffer from transverse myelitis (“TM”). Petitioner further alleges that she suffered the residual effects of this injury for more than six months. Petitioner represents that there has been no prior award or settlement of a civil action for damages on her behalf as a result of her condition.

Respondent denies that the Tdap vaccine caused petitioner to suffer from TM or any other injury.
